EPR studies of the possible binding sites of the cluster N2, semiquinones, and specific inhibitors of the NADH : quinone oxidoreductase (complex I)

By T. OHNISHI, S. MAGNITSKY,
L. TOULOKHONOVA, T. YANO, T. YAGI,
D. S. BURBAEV and A. D. VINOGRADOV

Volume 27 No. 4 (1999) 586–591

V. D. Sled should also have appeared as a co-author.

Protective peptides derived from novel glial proteins

By D. E. BRENNEMAN, C. Y. SPONG
and I. GOZES

Volume 28 No. 4 (2000) 452–455

Reference 13 should have appeared as follows:

Bassan, M., Zamostiano, R., Davidson, A., Pinhasov, A., Giladi, E., Perl, O., Bassan, H., Blat, C., Gibney, G., Glazner, G., Brenneman, D. E. and Gozes, I. (2000) *J. Neurochem.* **72**, 1283–1293.
