Contents Volume 11, Part 4, August 1983

603rd MEETING, LIVERPOOL
Colloquium: Adaptive Changes in Cell Membranes
Models for adaptive changes in cell membranes P. J. Quinn 329
Adaptive changes in membrane-transport systems of hibernators J. C. Ellory & J. S. Willis 330
Adaptive responses of fish membranes to altered environmental temperature A. R. Cossins 332
Adaptation to temperature in bacterial membranes N. J. Russell 333
Plasma lipids, lipoproteins and cell membranes J. S. Owen & M. P. T. Gillett 336
Adaptive changes in yeast membranes: catabolite repression and oxygen D. Lloyd, T. G. Cartledge & R. O. Jenkins 339
The effects of light and oxygen on membrane assembly in the photosynthetic bacteria C. N. Hunter 340
Adaptive changes in the lipids of higher-plant membranes J. L. Harwood 343

COMMUNICATIONS

600th MEETING, OXFORD
Colloquium: Structure and Function of Proteins and Nucleic Acids
Insulin D. C. Hodgkin, E. Dodson, G. Dodson & C. Reynolds 411
Studies on insulin structure and function Y. S. Zhang 417
Structure-function relationships of NAD⁺ and NADP⁺-dependent dehydrogenases with particular reference to the three-dimensional structure of 6-phosphogluconate dehydrogenase M. J. Adams, S. Gover, R. W. Pickersgill & J. R. Hellwell 429
Contents

Human antibody genes in normal and abnormal lymphocytes
T. H. Rabbitts & J. Flanagan 441

Structural analysis of abnormal haemoglobins found in the Chinese population
L. Chih-Chuan 442

Cranfield Meeting
Colloquium: Industrial and Medical Applications of Bioelectrochemistry
Applications of electron transfer between biological systems and electrodes
A. P. F. Turner, G. Ramsay & I. J. Higgins 445

Novel electrochemical sensors for clinical analysis
C. R. Lowe & M. J. Goldfinch 448

Microbial fuel cells

The exploitation of the electrochemistry of proteins
H. A. O. Hill 453

602nd Meeting, London
Colloquium: Control of the Expression of Genes Coding for Drug-Induced Proteins
Survey of drug-metabolizing enzymes
D. V. Parke 457

Variants of human microsomal enzymes
D. S. Davies & A. R. Boobis 459

Factors controlling the expression of genes coding for drug-metabolizing enzymes

Mono-oxygenase expression in primary foetal-rat hepatocytes in culture
P. Kremers & J. E. Gieelen 463

The genetic relationships and inducibility of soluble glutathione transferase of the rat liver
B. Ketterer, D. Beale, J. B. Taylor & D. J. Meyer 466

Book Reviews 469
COMMUNICATIONS

Inhibition of phosphorylase phosphatase by heat-stable inhibitor proteins of dog liver

E. Waelkens, J. Goris & W. Merlevede 347

Citrate as an inhibitor and as an activator of malate dehydrogenase

T. Day, H. K. King & J. P. Daw 347

Characteristics of a new muscle proteinase

M. F. Hardy, D. Mantle & R. J. T. Pennington 348

Histidine ammonia-lyase isoenzymes in guinea-pig liver and epidermis

R. L. Allen, R. Hopewell & C. Prottey 349

Histidine ammonia-lyase from kidney of rainbow trout (Salmo gairdneri Richardson)

R. L. Allen, N. J. Clark & D. A. Phipps 350

A simple procedure for the purification of the zymogens and active forms of canine anionic trypsin, cationic trypsin and chymotrypsin

D. A. Williams, R. M. Batt, & R. J. Beynon 351

Regulatory and structural interrelationships between adenosylcobalamin-dependent ethanolamine ammonia-lyase and the CoA-dependent aldehyde dehydrogenase of Escherichia coli

P. W. Jones & J. M. Turner 352

The nomenclature of the multiple forms of glutathione S-transferase in the rat

D. Sheehan & T. J. Mantle 353

Isolation of the major cyanogen bromide fragment of the α- and c-subunits of glutathione S-transferases AA and B and ligandin

R. P. Newton, B. J. Salvage & S. G. Salih 354

Identification of endogenous cytidine 3’:5’-cyclic monophosphate

R. P. Newton & S. G. Salih 355

Cytidine 3’:5’-cyclic monophosphate phosphodiesterase: purification and properties

N. Harper & A. H. Bittles 356

The effects of ginseng saponins on lactate dehydrogenase activity in the mouse

A. M. Rope & D. H. Williamson 357

Reversal of ketonaemia by vasopressin infusion in the starved rat

F. McEvoy, M. K. N. Patel, C. Evans & C. Felton 358

The effect of drugs on prostacyclin synthesis

Involvement of calmodulin in hormone-stimulated cyclic AMP production and degradation in mouse B16 melanoma

R. M. Sharrard, S. W. Walker, S. MacNeil, B. L. Brown, S. Tomlinson & S. Bleehen 360

Gel electrophoresis of calmodulin purified from B16 melanoma

U. Lönn 361

Formation of 10-kilobase DNA replication intermediates

G. Moore & M. J. Clemens 361

Inhibition of cell proliferation by human interferons associated with turnover of newly replicated DNA

M. J. Clemens & V. J. Tilleray 362

Inhibition of human lymphoblastoid-cell division by interferons and dexamethasone

S. P. Fricker & B. E. P. Swoboda 363

Inhibition of DNA synthesis in Epstein-Barr-virus-transformed B lymphoblasts by cytosine arabinoside and aphidicolin

Hepatitis-B-Virus DNA replication in chronic chimpanzee (Pan troglodytes) carriers

M. J. Humphries & S. R. Ayad 365

Mitogenic activity in fibronectin preparations

C. A. Stewart, A. R. McDonald & P. S. Agutter 366

A low-molecular-weight cytoplasmic factor that destabilizes DNA in isolated liver nuclei

S. P. Fricker & R. A. Klein 367

Characterization of DNA and protein synthesis in Trypanosoma brucei by using inhibitors

C. M. Thomas, J. A. Bryant, V. L. Dunham & R. Hull 368

Deoxyribonucleic acid polymerase activities in healthy and cauliflower-mosaic-virus-infected turnip plants

A. C. Eastwood & A. G. McLennan 369

Excision repair of u.v.-light-induced DNA damage in the wild carrot (Daucus carota)

S. M. Piperakis & A. G. McLennan 370

Enhanced re-activation of u.v.-light-irradiated adenovirus 2 in HeLa cells after heat shock

K. J. Johnson & A. D. B. Malcolm 371

Reconstitution of dinucleosomes on restriction fragments

A. R. McDonald, C. A. Stewart, C. D. Gleed & P. S. Agutter 371

A cytoplasmic protein that promotes nucleo-cytoplasmic RNA transport in rat liver

I. M. Gardiner & J. S. de Bellerocche 371

Substance P facilitates the release of dopamine in the nucleus accumbens and corpus striatum of rat

The role of neutral endopeptidase in neuropeptide metabolism

G. Moore & M. J. Clemens 373
