Contents  Volume 14, Part 4, August 1986

616th MEETING, LONDON
Colloquium: Carnitine Metabolism and Function

Is carnitine palmitoyltransferase inhibited by a malonyl-CoA-binding unit in the mitochondria?  S. BERGSETH, H. LUND & J. BREMER  671
Inter-tissue relationships in the synthesis and distribution of carnitine  C. L. HOPPEL & A. T. DAVIS  673
Characterization and properties of carnitine acyltransferases  L. L. BIEBER & C. J. FIOl  674
Carnitine acyltransferases in the physiological setting: the liver  V. A. ZAMMIT  676
Carnitine palmitoyltransferases in extrahepatic tissues  D. SAGGERSON  679
Disturbances in carnitine metabolism  P. R. BORUM  681

COMMUNICATIONS  685

BOOK REVIEWS  791
Communications

Elevation of cyclic AMP levels in GH₃ cells by stimulation of phosphoinositide hydrolysis 685
L. A. Quilliam, J. G. Baird, P. R. M. Dobson & B. L. Brown

Guanosine 5'-O-(3-thiotriphosphate) and thyroliberin stimulate inositol phosphate production in GH₃ cell homogenates 685
L. A. Quilliam, J. G. Baird, P. R. M. Dobson & B. L. Brown

Presynaptic modulation of cholecystokinin octapeptide release from rat corpus striatum by dopaminergic agents 686
R. Burrell, M. Sheehan & J. de Bellerocche

Effect of kainate lesion of substantia innominata on the polyphosphoinositide response to muscarinic receptor stimulation in rat cerebral cortex 687
S. Bolam, B. Premi & J. de Bellerocche

Quantitative digital subtraction autoradiography of brain opioid receptors 688
N. A. Sharif, C. R. Clark, T. O. M. Brown & J. Hughes

The influence of guanine nucleotides on muscarinic receptor binding in the locust supra-esophageal ganglion 690
J. Whyte & G. G. Lunt

Calmodulin-dependent phosphorylation in the rat neurohypophysis 691
A. F. Turner & D. B. Hope

Cryopreservation of isolated rat hepatocytes 692
J. Coundouris, C. Hannah, H. Grant & G. Hawksworth

A cytotoxicity assay in vitro with a liver metabolizing system as a screen for anti-cancer agents 693
S. P. Fricker & G. R. Mundy

A comparative study of cisplatin toxicity and route of administration 694
D. Hand, B. M. Elliott & M. Griffin

Polyamine levels in chemically induced rat liver tumours 695

Tissue-effective investigation of mitochondrial metabolism in needle biopsy samples of human skeletal muscle 696
J. P. Derrick, P. K. Tubbs & R. R. Ramsay

Purification and properties of an easily solubilized L-carnitine palmitoyltransferase from beef liver mitochondria 698
Y. T. Kruszynska & H. S. A. Sherratt

The effects of 2[(64-chlorophenoxy)hexyl]oxirane-2-carboxylate (extomir) on glucose turnover in fasted rats 699

Acylcarnitines in urine in medium-chain acyl-CoA dehydrogenase deficiency measured by quantitative high-pressure liquid chromatography 700

Human carnitine metabolism studied by 'H-nuclear-magnetic-resonance spectroscopy 702

The mechanism of inhibition of mitochondrial fatty acid oxidation by mercaptoacetate: inhibition of acetoacetyl-CoA, 2-methylacetoacetyl-CoA and 3-oxoacyl-CoA thiolases 703
R. H. Ashley

Intrasynaptosomal free calcium after potassium depolarization 704
J. W. Buckie & G. M. W. Cook

An indirect affinity chromatography procedure for the specific isolation of surface glycoconjugates 706
C. H. Wynn, A. Marsden & B. Robson

Calculation of the conformation of glycosphingolipids: G₃M₂- and G₃M₂-gangliosides 707
I. Cenci Di Bello, D. Abraham, C. Parsons & B. Winchester

Can restoration of normal α-D-mannosidase activity by can restoration of normal α-D-mannosidase activity by endocytosis disperse the stored oligosaccharides in mannosidosis fibroblasts? 708
C. Barker, A. Dell, M. Rogers & B. Winchester

Comparison of the fucose-containing storage products in different tissues of a dog with fucosidosis 709
M. J. Price-Jones & J. L. Harwood

The control of CTP:cholinephosphate cytidylyltransferase activity in pea (Pisum sativum L.) stems 710
C. E. Rolph, R. S. Moreton, I. S. Small & J. L. Harwood

Acyl lipid metabolism and fatty acid desaturation in the yeast Rhodotorula gracilis (CBS 3043) 712
A. J. Bate & A. J. Dickson

The importance of ketone bodies as tissue specific fuels in the development of the chick embryo neonate 713
K. Rahman, P. J. Lowe & R. Coleman

Control of biliary phospholipid secretion 714
J. M. Duerden & J. M. Tiffany

Lipid synthesis in rabbit Meibomian glands in vitro 715
R. A. W. Smith, B. Middleton & D. W. West

The influence of insulin and prolactin on cholesterogenesis and fatty acid synthesis in the rat mammary gland 716
A. R. Slabas, A. Hellyer & H. E. Bambridge
Phosphate efflux from isolated proximal-tubule cells of chick kidney
The effect of some tentacle molecules upon model lipid membranes
Specific fluorescent detection of disulphide-bridged peptides on thin-layer chromatograms
Interfacial properties of cells partitioning in aqueous polymer two-phase systems
Haematopoietic cell populations fractionated on the basis of their surface properties by countercurrent distribution
Criteria for discrimination among glycine-transport systems
Selective digestion of a membrane transport protein
Inappropriate expression of mitochondrial antigens in breast cancer
The metabolism of pyruvate and oxaloacetate by intact maize mesophyll chloroplasts
The active site of protein disulphide-isomerase: functional analogy to thiorodoxin
Proteolytic digestion of the 32 000-Mr uncoupling protein in rat brown adipose tissue mitochondria
Action of local anaesthetics on tone and contractility of rat and chick skeletal muscle
Choline acetyltransferase may be a cell-surface marker of the cholinergic NS-20Y cell line
Ethylcholine mustard aziridinium: an irreversible inhibitor of choline transport specific to tissue synthesizing acetylcholine
Activated lymphocytes in blood and cerebrospinal fluid from guinea pigs with chronic relapsing experimental allergic encephalomyelitis
Developmental changes in the amount of glial fibrillary acidic protein and glutamine synthetase in human medulloblastoma cells
Glutamate as a neurotransmitter in the corticostriate pathway: evidence in vivo
The detection of cholinergic ganglioside Chol-1 in rat brain by using monoclonal antibodies
Myelin-like membrane isolated from subcultures of rat brain cells
Chronic relapsing experimental allergic encephalomyelitis: relationships between autoantibody in cerebrospinal fluid, blood–brain barrier permeability and pleocytosis
Virus infection of guinea pig mononuclear cells alters their normal response to mitogens
Is the major synaptic membrane concanavalin A-binding glycoprotein, gp 50, located at the synapse: studies with a monoclonal antibody
Antibodies to neurofilaments in the sera of patients with motor neuron disease
The influence of type and level of dietary fat upon fatty acid composition in the adipose tissue of broiler chickens
Metabolism of testosterone by mixed human axillary bacteria
Effects of K+ on mitochondrial respiration
Uncoupler-induced proton permeability in mitochondria and vesicle membranes: an investigation using 31P and 1H nuclear magnetic resonance spectroscopy
Evidence in vivo for rapid and extensive degradation of newly synthesized collagen in tissues of adult rats
Ca2+-ATPase in the brush border of the rat parasite Hymenolepis diminuta (Cestoda)
Characterization of deoxycholate-solubilized human microsomal antigen
